A bidder, who was not present at the bid opening session on 9 March 2020, reviewed the Opening Register and discovered that his bid did not appear in the listing. It was subsequently discovered by the SCM Unit Opening Team on 12 March 2020 that the bid had indeed been received on time, but the envelope had, in error, been replaced, unopened, in the Tender Box. An 11th bid has therefore been included in the Opening Register as follows:
