**MEDIA STATEMENT: 24 JUNE 2021**

**BURST PIPE ON MUNIICIPAL RETICULATION FROM THE RO PLANT TO THE WATER TREATMENT PLANT**

The 2ML Reverse Osmosis Seawater plant was commissioned by QFS on the 23<sup>rd</sup> of June 2021 with the project steering committee and the Mayor.

After commissioning, the contractor started pumping to the Water Treatment Plant. On the 25<sup>th</sup> of June, a burst pipe in the municipal reticulation line going to the Water Treatment plant occurred. The contractor started excavating until late at night and completed the work on Sunday the 27<sup>th</sup>. After completion of the repairs the line was tested and there was still a small leak on one of the fittings. The contractor is currently on site adjusting the fitting and they have estimated that by 7pm this evening, they will be done with the works and allow QFS to start pumping the water from the RO plant.
