

NDLAMBE MUNICIPALITY

VACCUM TANKER SERVICES UPDATE

PORT ALFRED AND KLEINEMONDE

We would like to inform you that Ndlambe Local Municipality offers vacuum tanker services for the emptying of septic tanks at a rate of R685.77 per request, payable directly to the municipality through official payment channels. Please note that no payments should be made directly to the vacuum truck drivers.

Due to a high volume of service requests and some of our municipal trucks undergoing maintenance, there may be delays in meeting the standard 3-day lead time between service requests and the truck's arrival. We kindly ask residents to request the service before their septic tanks overflow to avoid complications.

Your patience and understanding are appreciated as we work to address all requests as efficiently as possible.

Thank you for your cooperation.
