

NDLAMBE MUNICIPALITY

SANITATION SERVICES UPDATE

THE WHOLE NDLAMBE MUNICIPAL AREA

As part of our ongoing efforts to ensure smooth service delivery, we kindly remind all residents to regularly check their septic tanks. It is crucial to monitor your tank and request the services of a vacuum tanker in advance, especially if your tank is nearing full capacity. This will help us to efficiently schedule services and prevent last-minute emergencies.

With the festive season approaching, we expect a significant increase in service requests, particularly from holiday homeowners who only return in December. To avoid overwhelming our capacity, we urge you to check your septic tanks now and request emptying for those that are almost full.

By acting early, we can ensure that everyone receives timely and efficient service during this busy period.

Thank you for your cooperation as we work together to maintain effective sanitation services.
